

VII. INTERNATIONAL HETHLAND BALATONI FEEDER CUP MAY 4.-8. 2022.

Venue: Hethland Resort Zamárdi

Address: 8621, Zamárdi Kiss Ernő street. 3.

GPS: Width: 46°53' 09.7" N Length: 17°56' 54.5" E

Dear friends, competitors!

It's slowly springing up and all the anglers are sorting out, cleaning their fishing gear and asking, what the 7th International Balaton Hethland Feeder Cup and Kitchen of Nations Cooking Competition and Fishing Show will look like. We are pleased to announce that we are holding the competition.

It's hard to remember where we started and how we started. Eight years ago, on our first race, there were twenty-one, then fifty, and finally a hundred, and later there were competitors from abroad. A lot of friendships, adventures and exciting stories was borned here. There was a time when we had to postpone the race because of the epidemic situation and a lot of things happened that are history now.

VII Hethland Feeder fishing competition. Yes, this is the 7th! The number seven is a special number, a watershed. For this reason, we are trying to introduce several novelties.

Once again, we want to please the participants and try something unknown again. It's been a long-held dream to organize a Fishing Show. Now we're planning a fantastic gathering of friends and a great race, both with the sponsors and with the competitors. In one of the most beautiful places of Hungary should not only be a friendly fishing competition, but also a unique event of several days. We know that all anglers can and love cooking, so we organize the 2nd Kitchen of Nations Cooking Competition. So in addition to holding the Cooking Competition and the Cup, we would like to please you with this new program.

HETHALND FISHING SHOW MAY 4.-8. 2022

We thought a bold one, and there's nothing better than competing together, fishing together and cooking together. What if we could get to know each other's racing techniques even more widely, get to know the novelties, feeding materials and tools that can work well on Lake Balaton or in other waters?

Inspired by this idea, we would like to organized the Hethland Fishing Show for the first time in 2022.

- We went to exhibitions, we could hold the stick, we could take it in hand, we could feel what it was like to hold a remote throwing stick, but we couldn't really try it because we were at an exhibition..

- What it's like to have a bait, a feeding material , we want to knead it, try to figure out how it behaves in the water, but we couldn't do that at an exhibition. But on the shores of Lake Balaton!

- What it's like to see a wobler, but we didn't know how it moved in the water. But on the shores of Lake Balaton!

And we could list the advantages of having the exhibition on the waterfront.

Therefore, we bring the "exhibition" to the feeder cup site, so that we can try out in practice what it is like to take the new stick in our hands, how much we can throw with it, we can try the feeding material, we can knead it, see if it can pull the fish there. Actually, we'd like to have a fishing show that's finally out on the waterfront.

The event starts on May 4 with this series of competitions. Therefore, Wednesday and Thursday are dedicated to inviting the friends and companies who have helped us to the waterfront to show us products and novelties that we have seen at the exhibitions and to see them in action on the Shore of Lake Balaton. In this regard, we would like to supplement the series of programmes with presentations and professional programmes:

- bleak tongs competition
 - children's fishing competition
 - other fish catch competitions
 - lectures
 - product presentations

With a lot of colorful programs that only the waterfront allows, we're going on a road that we started many, many years ago with the Feeder Cup.

The International Hethland Balaton Feeder Cup started out as a small competition, has now grown into a prestigious International Competition, and we hope that its success will continue unbroken.

Fishing show, cooking competition and the International Hethland Balaton Feeder Cup can be created with your help and support, so we can spend unforgettable days together.

We look forward to seeing you all with great love!

II. NATIONS KITCHEN COOKING COMPETITION May 6, 2022

As you have become accustomed to in recent years, the International Hethland Balaton Feeder Cup fishing competition itself was organized in the spirit of friendship and family in addition to the importance of fishing, in conjunction with the Cooking Competition of the Kitchen of Nations.

Breaking with tradition in response to public pressure, in 2022 we will organize exhibitions, fishing demonstrations and performances with domestic and foreign manufacturers and distributors for the

first time from Wednesday. Of course, you can't miss the cooking competition or the children's fishing competition.

The jury of the cooking competition is Mr. Széll. The competition is open to 16 teams, among whom we will draw extremely valuable prizes.

VII. INTERNATIONAL HETHLAND BALATONI FEEDER CUP 6-8 May 2022

The traditional International Hethland Balaton Feeder Cup is hosted for the seventh time by the wonderful gem of the south coast, the longest free beach in Zamárdi. Our technical base, Zamárdi - Hethland Resort, ensures the smooth operation of our competition year after year. In addition, in 2022, we will pay special attention to hygiene standards.

Date of competition: 6-8 May 2022

Up to 138 people can take part in the competition

About the competition: The competitors are divided into 6 sectors (i.e. 23 people). Valuation is by sector. After each round, we announce winners by sector.

Rules: 1 feeder rod, 1 hook, method optional, Feeding material: 12 liters, live bait 2.5 l (mosquitoes excluded) Feed and hook size optional, method method allowed. Championship title is based on the cumulative result of 2 rounds.

Attention Dear Friends, Competitors!

On the 6th of May (7-8 May) before the competition, a mandatory training day is held.

What does that mean?

The largest standing water in Europe is Lake Balaton, where a fisherman can show what he is made of, live water, weather, etc.

We think the value of sport is very high. Several people have suggested that training should be mandatory. In order to feed the track for a better catch the next day, so that everyone can start on the same conditions. For this reason we ask everyone to train from 8:00 am on Friday until late afternoon. You can fish for a minimum of 3 hours with the collection permits received (or Friday morning) at the time of registration the previous day. On May 6, you can book your seats with a 8:00 a.m. draw. If you are prevented from training, please do it with a friend or sports partner. Thank you!

Participants must have a valid state ticket, a competitor's card, and tourist tickets can be exchanged for foreign competitors.

Important: at the time of the competition, the current government decree and MOHOSZ regulations shall prevail. We ask all participants to accept and take into account these regulations.

We will keep you informed on the website, by email and on the spot.
