Dear Friends, Fellow Competitors!

It is slowly springing and all anglers are sorting and cleaning their fishing equipment and are already speculating about the VIII International Balaton Hethland Feeder Cup and Fishing Show. Today, we look back with nostalgia to our first tournaments, when first we had only 27, then 50, then 100, and before we knew it, we were welcoming competitors from abroad. So many friendships were forged, so many adventures and so many exciting stories were told, and of course so many memories of memorable catches that are now just history.

As always, we've been thinking of something new to please you, the participants. It has long been a dream of ours to organize a real Fishing Show. Now we are working hard to organise a fantastic gathering of friends and a super competition, with both sponsors and competitors.

HETHLAND FISHING SHOW 3-7 May 2023.

What if we could get to know each other's racing techniques even more widely, learn about new things, feeding materials, tools that could work well on Lake Balaton or other waters? With this idea in mind, I would like to organise the first Hethland Fishing Show in 2023.

- We've been going to exhibitions, we've been able to hold the rod, we've been able to touch it, we've been able to feel what it's like to catch a long distance rod, but we haven't actually been able to try it out in the flesh, because we've been at an exhibition.
- And what it feels like to have a bait, a bait material, we would like to crumple it up and test how it behaves in the water... we couldn't do that at an exhibition. But on the shores of Lake Balaton!

- Or how it feels to see a wobbler, but we didn't know how it moves in the water. But live, on the shore of Lake Balaton!

And we could go on and on about the benefits of having an exhibition right on the waterfront, and we wanted to have just such a Fishing Show!

The event kicks off on 3 May with this series of competitions. That's why we are dedicating Wednesday and Thursday to inviting friends and companies who have helped us so far - or who will become our permanent partners - to the waterfront to show us their products and innovations, which we have already seen in the indoor exhibitions, but also in action, on the shores of Lake Balaton. To this end, we would like to complement the series of programmes with demonstrations and professional programmes:

- a sneci catching competition
- a children's fishing competition
- other fishing competitions
- presentations
- product demonstrations

We are waiting for everyone with great pleasure!
